Job Description

Job Title: Front End Developer
Date: ASAP
Reporting to: IT manager
Location: Hybrid

Overview

Prioclen LTD is a fast-growing Nigerian based management consulting firm with its head-quarters in Abuja Nigeria. We have a forte in providing strategic consultancy and advisory services to organizations- private, governmental and individual firms, by creating and integrating information technology solutions to enhance their service delivery and ensure sustainable growth and development in niche-based brands to these individuals/ organizations.

Purpose

We are looking for a qualified Front-end developer to join our IT team. You will be responsible for building the 'client-side' of our web applications. You should be able to translate our company and customer needs into functional and appealing interactive applications. We expect you to be a tech-savvy professional, who is curious about new digital technologies and aspires to combine usability with visual design. Ultimately, you should be able to create a functional and attractive digital environment for our company, ensuring great user experience.

Responsibilities

Use markup languages like HTML to create user-friendly web pages
• Maintain and improve website
• Optimize applications for maximum speed
• Design mobile-based features
• Collaborate with back-end developers and web designers to improve usability
• Get feedback from, and build solutions for, users and customers
• Write functional requirement documents and guides
• Create quality mockups and prototypes
• Help back-end developers with coding and troubleshooting
• Ensure high quality graphic standards and brand consistency
• Stay up-to-date on emerging technologies

Requirements

Essential

- A bachelor's degree in Computer engineering, Computer science, Information Technology or any relevant field
- Proven work experience as a Front-end developer.
- Hands on experience with markup languages.
- Familiarity with browser testing and debugging.
- Knowledgeable of front-end technologies and platforms, such as JavaScript, HTML5, and CSS3.

Desired

- Understanding of layout aesthetics.
- Knowledge of SEO principles.
- Familiarity with software like Adobe Suite, Photoshop and content management systems.
- In-depth understanding of the entire web development process (design development and deployment).

Skills
- Knowledge of industry trends.
- An ability to perform well in a fast-paced environment.
- Excellent analytical and multitasking skills.
- Excellent verbal and written communication skills.

Summary Terms and Conditions

Contract: 12-month fixed term contract
Salary: Very Attractive
leave: 22 working days.
Pension: Minimum 10% Employer contribution with minimum 8% Employee contribution
Healthcare: Company scheme subject to terms and conditions.
Life assurance: Company life assurance scheme.
Location: Abuja, Nigeria.
Notes: This post will be subject to background checks. A full statement of the main terms and conditions of employment will be supplied with any formal offer of employment. This job description does not form part of your contract of employment.
