We have a forte in providing strategic consultancy and advisory services to organizations- private, governmental and individual firms, by creating and integrating information technology solutions to enhance their service delivery and ensure sustainable growth and development n niche-based brands to these individuals/ organizations.

Job purpose

We are looking to recruit an Information Technology (IT) Auditors that will help our organization by protecting our internal controls and data within our technology system. You will safeguard sensitive information by identifying weaknesses in the system's network and creating strategies to prevent any security breaches in the technology.

Responsibilities

- Examine internal IT controls, evaluate the design and operational effectiveness, determine exposure to risk, and develop remediation strategies.
- Troubleshoot security and network problems.
- Respond to all system and/or network security breaches.
- Plan, implement, monitor, and upgrade security measures for the protection of the organization's data, systems, and networks.
- Participate in the change management process.
- Test and identify network and system vulnerabilities, and create counteractive strategies to protect the network.
- Conduct efficient and effective IT audit procedures.
- Communicate complex technical issues in simplified terms to the relevant staff.
- Perform regular audit testing and provide recommendations.
- Review, evaluate, and test application controls.

- Provide recommendations and guidance on identified security and control risks.
- Develop a strong understanding of business and system processes.

Requirements

Essential:

- A degree in information technology/computer information systems or related. (essential).
- 2 years of work experience as an IT Auditor

Certification:

- Certified Information Systems Auditor (CISA) (essential).

Desirable:

- Experience with firewalls (functionality and maintenance), Office 365 Security, VSX, and Endpoint Security.
- Financial and IT application experience (SAP, QAD, MFGPro, Peoplesoft, and Hyperion).
- Expert in Firewalls, VPN, Data Loss Prevention, IDS/IPS, Web-Proxy, and Security Audits.

Skills:

- Clear understanding of IT audit methodologies.
- Ability to work under pressure in a fast-paced environment.
- Strong attention to detail with an analytical mind and outstanding problem-solving skills.
- Great awareness of cybersecurity trends and hacking techniques.
